Clearwater, Fl. 33762-5133

**STOP MOSQUITO DEVELOPMENT
GET RID OF STANDING WATER!**

Empty, remove, cover or turn upside down any receptacle that would hold water — particularly old bottles and tin cans.

Change water and scrub vases holding flowers or cuttings twice each week — or grow cuttings in sand.

Discard old tires or store them indoors.

Screen rain barrels and openings to water tanks or cisterns.

Repair leaky plumbing and outside faucets.

Connect open waste-water drains to a sewage system, or construct separate sump or leach lines.

Clean clogged roof gutters and drain flat roofs.

Fill holes in trees with sand or mortar, or drain or spray them, as required.

Stock ornamental ponds with mosquito fish.

MOSQUITOES develop only in water . . . and water standing just a few days can produce a crop of mosquitoes!

STOP RAISING

MOSQUITOES

IN YOUR YARD & HOME!
